

Academic and Space Planning: Overview

Tsu-Jae King Liu

October 28, 2016

Facilitating Excellence in Teaching and Research at Berkeley

Acknowledgments

Academic Program Reviews

- Desirable outcomes
 - Strategic plan and recommendations
 - philosophy: help departments to help themselves
 - Guidance for space planning (and FTE allocation)
- New strategic directions: portfolio view
 - Synchronization of reviews of related units/programs (e.g. journalism/communications)

Space Planning Activities

- Manage campus space inventory
 - New Tririga space management system
- Participate in programming for new buildings
- Improve space utilization

- Collaborate with VCRE & CFO
 - Regular meetings with members of CFO & VCRE organizations

Space Management

- Considerations
 - Academic program needs
 - Health and safety
 - Financial sustainability
- Develop best practices
 - Dynamic allocation of space
 - Regular space review/assessment process
- Develop a prioritization process
 - Urgency
 - Importance to Berkeley's mission
 - Availability of funding

GEO Activities

- Facilitate high-level delegation visits from current and prospective international partners
- Manage MOUs and track visits & collaborations
 - Maintain Salesforce database
 - Standardize MOU process
 - Develop new website
- Evaluate partnerships
 - Regularly report on campus-wide global engagement
 - Develop (and publish) list of best practices

International Partnerships

- Goals/objectives

- Develop multi-cultural competency in students
- Promote the Berkeley brand (competitiveness)
- Give faculty & students access to world-class resources not available at Berkeley
- Bring new resources to Berkeley to bolster its academic excellence and mission (teaching, research, service)

- Requirements

- Alignment with Berkeley traditions of Excellence & Access
- Faculty interest & uniqueness of value proposition
- Adequate resources (seed funding, space) at Berkeley

Looking Forward

- Team building
- Collaboration
- Outreach

Academic & Space Planning
